

## A paradigm shift in the use of coffee Hassle free, pleasurable ways to enjoy your “Gourmet Coffee Extract”

Our “Gourmet Coffee Extract” is extracted using the Supercritical fluid extraction (CO2 extraction) technologies and our proprietary AMP process. Did you know that the coffee bean contains natural antioxidants? With traditional way of brewing, there is a lot of favor and nutrients that doesn't get extracted during the brewing process.

Without using the harsh solvents or alcohol we capture the whole bean essence, essential oils, remove the tannin-acid and preserved the true fresh flavors and natural phyto-nutrients, antioxidants from the coffee beans.

### Coffee's nutritional benefit

- **Helps prevent cholesterol from crystallizing, cuts fat storage by increasing energy expenditure.**
- **Enhanced mental alertness and improved mental processes.**
- **Decrease levels of anxiety and depression**
- **Assist in moderating asthma attacks**
- **Antioxidant substances in coffee can be effective in disease protection.**
- **Coffee has many antioxidants such as chlorogenic acid and magnesium. These ingredients can improve sensitivity to insulin and may contribute to lowering risk of Type 2 Diabetes.**
- **Guilt Free Coffee**
